

**Martin Mart – 2014 Cataloged Colonies**  
**Gaylord Nelson Audubon Society**

For more information about Martin Mart contact Steve Betchkal at [gonebirding88@hotmail.com](mailto:gonebirding88@hotmail.com)

**Purple Martin Inventory Form**

Physical address:

Street Number: \_\_\_\_\_

City: \_\_\_\_\_ Zip code: \_\_\_\_\_

Type of Housing:

Artificial gourds \_\_\_\_\_ (number)

Natural gourds \_\_\_\_\_ (number)

Houses/Apartments \_\_\_\_\_ (number of compartments available)

Total holes available \_\_\_\_\_

How long has this colony been in existence? \_\_\_\_\_ (Best estimate if unsure)

2014 Statistics:

Number of successful nesting pairs: \_\_\_\_\_ Number of young fledged: \_\_\_\_\_

Number of adult/subadult birds not nesting: \_\_\_\_\_

Would you be willing to provide a phone number, e-mail for follow up next year?

Name: \_\_\_\_\_

Phone Number: \_\_\_\_\_

e-mail: \_\_\_\_\_

Notes: How is the colony doing? Any other interesting facts, details, data on the colony?

**2014 Cataloged Colonies**

**Eau Claire County**

(No colonies found)

**Chippewa County**

CH01 "Highway 178"

Location: 44.990933, -91.359001

Physical Address: 10158 151<sup>st</sup> St, Chippewa Falls, WI 54729

Type of Housing:

Artificial gourds: 10

Natural gourds:

Houses/Apartments:

Total holes available: 10

Estimated Longevity:

2014 Statistics:

Number of successful nesting pairs: \_\_\_\_\_ Number of young fledged: \_\_\_\_\_

Number of adult/subadult birds not nesting: \_\_\_\_\_

Contact: Dustin & Krista

(715) 773-009

[kristajw25@yahoo.com](mailto:kristajw25@yahoo.com)

Notes: This colony was formerly tended by Alfred Baldeschweiger (sp) for many years.

CH02 "Chippewa Manor"

Location: 44.916353, -91.386242

Physical Address: 222 Chapman Road, Chippewa Falls, WI 54729

Type of Housing:

**Martin Mart – 2014 Cataloged Colonies**  
**Gaylord Nelson Audubon Society**

Artificial gourds:

Natural gourds:

Houses/Apartments: 6

Total holes available: 6

Estimated Longevity: 30 years

2014 Statistics:

Number of successful nesting pairs: \_\_\_\_\_ Number of young fledged: \_\_\_\_\_

Number of adult/subadult birds not nesting:

Contact: Karen Langenberger

(715) 723-4437

[Karen.Langenberger@chippewamanor.com](mailto:Karen.Langenberger@chippewamanor.com)

Notes: This colony formerly had houses up beside Highway 53, but has since been relocated farther back from the road along the N side of the property.

CH03 "Birch Point Resort" on Marsh Miller Lake

Location: 45.147845, -91.394810

Physical Address: 14588 210<sup>th</sup> Avenue, Bloomer 54724

Type of Housing:

Artificial gourds:

Natural gourds:

Houses/Apartments: Wood

Total holes available: 96 (7 houses)

Estimated Longevity:

2014 Statistics:

Number of successful nesting pairs: 6 Number of young fledged:

Number of adult/subadult birds not nesting:

Contact: ?

Notes: Houses in bad shape. Deteriorating. Was told that no one actually cleans them out or maintains them. No known contact.

CH04 "Skaw Colony"

Location: 45.226241, -91.479343

Physical Address: 26407 100<sup>th</sup> Street, New Auburn 54755

Type of Housing:

Artificial gourds: 10

Natural gourds:

Houses/Apartments: Metal

Total holes available: 40

Type: Metal apartment & artificial gourds

Estimated Longevity: 50 years

2014 Statistics:

Number of successful nesting pairs: 6 Number of young fledged:

Number of adult/subadult birds not nesting:

Contact: Kathryn & Judy Skaw

(715)

[jkskaw@hotmail.com](mailto:jkskaw@hotmail.com)

Notes: Houses are located on S side of house, adjacent to an open field. Skaw rhymes with "cow."

CH05 "Langenberger" (W Side of Cornell Lake)

Location: 45.116526, -91.346086

Physical Address: 16244 190<sup>th</sup> Street, Bloomer 54724

Type of Housing:

Artificial gourds: 8

Natural gourds:

Houses/Apartments:

Total holes available: 8

CH06 "Schneider" (N Side of Cornell Lake)

Location: 45.118344, -91.343091

Physical Address: 16050 190<sup>th</sup> Avenue, Bloomer 54724

Type of Housing:

Artificial gourds: 26

Natural gourds:

Houses/Apartments: 2 metal

Total holes available: 54

Estimated Longevity: Since 1999 (There was a colony at Cornell Lake when he arrived there in 1998)

2014 Statistics:

Number of successful nesting pairs: 42 Number of young fledged:

Number of adult/subadult birds not nesting:

Contact: Paul & Troy Schneider

(715) 715-288-6802

paultroy@centurytel.net

Note: Martin activity is heavy and obvious around entire lake, with birds perched atop antennas and even trees on properties where there are no nest boxes – even across the lake at the resort on the E side, which has no houses. Paul is the person who started up colonies at both Chippewa Manor and at Baldeschweiger's.

CH07 "South Cornell Lake"

Location: 45.113285, -91.342754

Physical Address: 16446 & 16462 190<sup>th</sup> Avenue, Bloomer 54724

Type of Housing:

Artificial gourds:

Natural gourds:

Houses/Apartments: 2 metal, one at each address

Total holes available: 12 + 12

Estimated Longevity:

2014 Statistics:

Number of successful nesting pairs: \_\_\_\_\_ Number of young fledged: \_\_\_\_\_

Number of adult/subadult birds not nesting:

No activity noted

Contact:

CH08 "R & R Bar" North Cornell Lake

Location: 45.119736, -91.341300
